Reiki Classes Now Forming!

Levels I, II & Masters

The main course goal in this class is to help you connect to the universal life force called Reiki....learning the basics and history is only the beginning. Reiki helps to enhance personal and spiritual evolution and to assist on the path to enlightenment. The attunements will begin a process of helping you know and remember what you want and desire in your own life.

There are no limitations to Reiki. You will learn hand positions, self healing, the Reiki code, and begin doing hands on sessions with Reiki I. Once you are attuned and practicing on yourself, your vision becomes clearer. The final goal is to help you to use Reiki as a tool to live a richer, fuller, more ALIVE life. Reiki can and will assist you along your path if you let it....just open your heart

After a couple of lessons on the history of Reiki and it's basic principles, a brief intro to the chakra system, she will be attuning you to the USUI REIKI ONE energy. You will be required to keep a daily journal, but these case recordings are the best part of the class! You will be amazed at how much you'll learn by writing down what you've experienced during a session. It's a powerful tool for your life and your life's work. You will learn how to do self-healing sessions and one-on-one client sessions.

Chapette will be working energetically with each of you on a daily basis for your 21 days and will be touching base often to see how you are doing, what you are experiencing, and what you may need.
